Press release
31 March 2026

Quarterly Government Debt Management *Prospect*

Q2/2026

- *In Q2, government bonds will be offered for sale in the amount of **40-60 b.kr.** market value.*
- *A new nominal government bond maturing in 2029 will be issued during the quarter, and market making is planned for the series.*
- *The bonds that could conceivably be offered are all benchmark Government series, and issue size and market conditions will determine how much, if any, will be sold in each series.*
- *It is possible that switch auctions of RIKB 26 1015 will be held during the quarter.*

Issuance during the year

In the Government Debt Management *Prospect* for 2026, it was announced that Government bonds would be issued in the amount of 200 b.kr. market value during the year¹. Issuance in the first quarter of 2026 totalled 60 b.kr. market value and therefore 140 b.kr. are remaining of the target amount for the year.

Planned Government bond issuance

Total Government bond issuance in the second quarter of the year is estimated at **40-60 b.kr.** It is planned to issue a new nominal bond maturing in 2029. The terms and conditions for the series will be announced at a later date.

Switch auctions

It is possible that switch auctions will be held, in which owners of Government bonds in series RIKB 26 1015 will be invited to swap their bonds for other benchmark series. Terms and market conditions will determine which issues will be offered in switch auctions and how much will be sold in this manner.

¹ The market value is calculated based on the clean price plus accrued indexation, but without accrued interest.

LÁNAMÁL RÍKISINS

Planned Treasury bill issuance

Issuance of Treasury bills is an important element in Treasury liquidity management. Treasury bill maturities may range from one month to 12 months. Flexibility in Treasury bill issuance is important, and it is possible that additional auctions will be added to those already on the Government Debt Management issuance calendar.

Further information on issuance of individual series of Government bonds and bills will be published two business days prior to each auction.

Further information can be obtained from Government Debt Management at the following e-mail address: lanamal@lanamal.is.
